NO SHOW Policy

The physicians at Medicine Associates of North Texas are happy to help you with your medical needs. That includes being able to provide you an appointment when needed. Patients failing to attend scheduled appointments, otherwise known as a "NO SHOW", have hindered our ability to assist you in your time of medical need. In an effort to combat this issue, please read the following policy:

- If your appointment is missed without providing a 24-hour notice, your account will be charged with a \$25 "NO SHOW" fee.
- You can be dismissed from the practice if you repeatedly NO SHOW for scheduled appointments without providing sufficient notice.

I have read and understand the above policy on missing scheduled appointments without providing 24-hour notification.
